The ECOVERSITIES NETWORK

ECOVERSITIES FILM FESTIVAL

Welcome to the Ecoversities Film Festival, a resource celebrating and showcasing the initiatives of people and communities around the world creating spaces of resistance vis a vis the traditional academic system, reclaiming their vast local knowledge systems and cultural imaginations to restore and re-envision learning processes that are meaningful and relevant to the call of our times. These ecoversities overlap not only in their critiques of our broken education systems, but also in cultivating new stories, practices and possibilities that reconnect and regenerate local ecological and cultural ecosystems.

We invite you to screen these films in your communities, to facilitate discussions around the ideas that they generate, and we hope that they can inspire new forms of collaborative activity. We also invite you to share your own experiences and experiments and contribute to the continued learning and growth of the community and network.

RED CROW COMMUNITY COLLEGE

RELEARNING THE LAND

This is the story of a Blackfoot community in southern Alberta, Canada, and how they have re-taken control of their education system and de-colonised their learning within Red Crow Community College. Relearning the land explores how education can be used both to wipe out particular ways of knowing and lead to suffering.

Duration 1:08 hours

Country: Canada

Produced by: Enlivened Learning
